

Kitchen Faucet Series 1

As in many homes, the modern day kitchen is a focal point for families. Pamir's Kitchen Faucets are uniquely designed for today's use in many types of kitchen spaces. This series is not merely practical to use, but also delivers a warmhearted feeling to people. Parmir solely incorporates the finest, high density, SS 304 stainless steel to construct its faucets with single cast technology. Our environmentally friendly faucets are 100% lead free, rust resistant, anti-oxidant & completely recyclable. Whether used in a commercial or residential application, our unique & high quality products stand out above the rest. Because our faucets are made with the highest standards containing zero brass, our sustainable designs are meant to last a lifetime and comes with a limited lifetime warranty. Parmir has truly perfected an innovative, non-corrosive, sustainable product.

Royal Series

The sense of nobility not only comes from luxury and extravagance but also from the authoritative sense that occurs when redundancy is replaced with innovation. The Royal series is inspired by the crown of Louis XIV. It not only leans towards a royal style; it also presents a glorious feeling while using it. Parmir solely incorporates the finest, high density, SS 304 stainless steel to construct its faucets with single cast technology. Our environmentally friendly faucets are 100% lead free, rust resistant, anti-oxidant & completely recyclable. Whether used in a commercial or residential application, our unique & high quality products stand out above the rest. Because our faucets are made with the highest standards containing zero brass, our sustainable designs are meant to last a lifetime and comes with a limited lifetime warranty. Parmir has truly perfected an innovative, non-corrosive, sustainable product.
